SAWEA Recommended Code of Conduct for Wind Energy Development

SAWEA is committed to the sustainable development of an environmentally and socially conscious wind energy industry in South Africa. SAWEA requires all members to follow the Recommended Code of Conduct described below to ensure that responsible development is maintained throughout the South African wind energy industry.

- Follow international best practice during project development, implementation and operation
- Endeavour to contribute to the social developmental agenda of South Africa
- Encourage project stakeholders to be environmentally and socially responsible citizens
- Exercise due care to reduce the risk of negative impacts on the environment and local communities
- Engage suitably qualified and experienced contractors, sub-contractors and partners
- Duly observe local, national and international regulatory requirements
- Maintain ethical practice at all times

SAWEA is the leading trade and professional body representing the wind industry in South Africa. As the voice of South Africa's wind industry, SAWEA's primary purpose is to promote the sustainable use of wind energy in South Africa acting as a central point of contact for information for its members, and as a group promoting wind energy to government, industry, the media and the public.

Our members comprise both national and international developers, manufacturers, and stakeholders working in the industry, and aggregates a substantial amount of knowledge and expertise in a wide range of areas.
