The **South African Wind Energy Association** is a Non-Profit Organisation that has been operating in South Africa for more than 15 years (Registered in 2004). We represent the interests of the wind energy sector, with a focussed on:

- Advocacy for the implementation of ambitious, consistent SA energy policy that harnesses the country's immense wind resource and results in the streamlined growth of a wind power asset base;
- Facilitation and promotion of excellent practice in the associated localisation, socio-economic and economic development and transformational areas of wind power;
- Endorsement and recognition of excellent operational practice in the generation of wind power;
- Provision of pertinent information to current and prospective investors seeking to enter the SA wind power market;
- Provision of up to date, dependable public information on the socio-economic contributions of the wind Industry- particularly in relation to rural development, women and youth;
- Through Wind power, promotion of renewable power as a direct contribution to the achievement of national development plan and climate change objectives;
- Promotion of wind and renewable power investment in Africa through partnership and dialogue both within South Africa and the region.

100 Member companies across the Wind Energy Value Chain, including: **IPPs, Developers, Wind Farm Companies, Consultants, Investors, Logistics, Research & Academia.**
