Overall Comments

“ I would like to participate next year if time and circumstances permit.

I didn't attend the seminars, only the exhibit hall, as this was a last minute trip to South Africa. I thank and congratulate SAWEA for an extremely well organized and well done event. The team very responsive. I have been to numerous wind conferences in the US, including 5 AWEA WINDPOWERs and yours looked world-class for those focused on wind in South Africa. Wish I had learned about it earlier and especially the business-to-business services. Have given the event high praises with my circle (US) and Sub-Saharan Africa. As an aside, I was surprised and delighted by the beauty of Cape Town, the Westin and the venue as a first time visitor. I would like to visit again in the future. You have done an excellent job creating this conference, especially in such a short time.

Well done, many thanks.”

“ Small but good for starting! ”

“ Thank you for the opportunity to participate as an Exhibitor. ”

“ As mentioned, the Danish Embassy in Pretoria is considering to establish a national Pavilion at the Windaba 2013.

Otherwise – very well done!! Thank you! ”
